

214 VETERAN SOLUTIONS

Building Excellence

C A P A B I L I T I E S S T A T E M E N T

214 Veteran Solutions is a veteran-owned general contractor based in San Antonio, TX, specializing in HVAC, plumbing, electrical, and comprehensive construction services for government, commercial, and residential clients. With over 60 years of combined military experience, our team delivers agile, compliant, and cost-effective solutions while ensuring every project meets stringent standards and requirements.

CORE COMPETENCIES

- ✓ **HVAC Systems** — Installation, maintenance, and repair of heating, ventilation, and air conditioning systems for commercial and residential applications
- ✓ **Plumbing** — Full-service plumbing including new construction, remodeling, code-compliant waste management, and water filtration systems
- ✓ **Electrical** — Licensed electrical services including wiring, panel upgrades, code compliance, and specialty installations
- ✓ **General Construction** — Comprehensive construction management including concrete, framing, roofing, finishing, and full build-outs
- ✓ **Project Management** — End-to-end project oversight from planning and permitting through inspection and closeout

DIFFERENTIATORS

214 Veteran Solutions is founded and operated by three U.S. military veterans, each with 20 years of service. This background provides a distinct advantage in government contracting:

- Deep understanding of federal procurement processes, compliance requirements, and government standards
- Mission-driven culture focused on accountability, precision, and on-time delivery
- Proven ability to operate within structured environments and adapt to evolving project requirements
- Combined 60+ years of military leadership and discipline applied to every project

PROJECT HIGHLIGHTS

Commercial Warehouse Conversion — Detail Shop Build-Out

Converted an empty warehouse into a fully operational automotive detail shop. Scope included complete electrical installation, code-compliant plumbing to prevent hazardous chemical discharge into sewers, custom curtain mounting system, and large-scale water filtration installation. All work met city compliance standards.

Residential Addition — 760 Sq Ft Full Build

Executed a full 760 square-foot addition to an existing residence, handling all trades in-house: concrete foundation, framing, roofing, electrical, plumbing, HVAC, sheetrock, texture, paint, flooring, and complete bathroom and bedroom finishes. Delivered on schedule as a turnkey solution.
